

Analyze and Visualize WeRateDogs Data Report

After Wrangling Data, I analyze Data and get some insights :

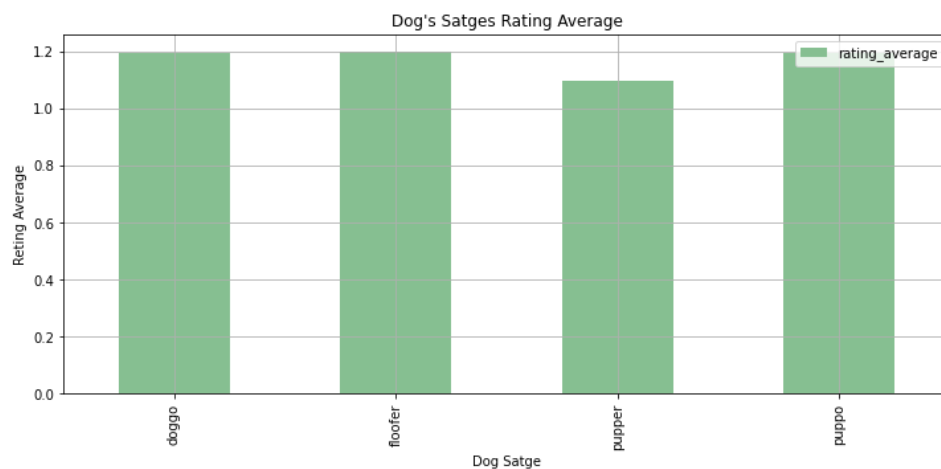

- [Which Dog's Stage have most favorites and Retweets](#)
- [Which Dog's Stage have most rates](#)
- [Which Dog's Stage have most Tweets Per Month](#)

1. Which Dog's Stage have most favorites and retweets

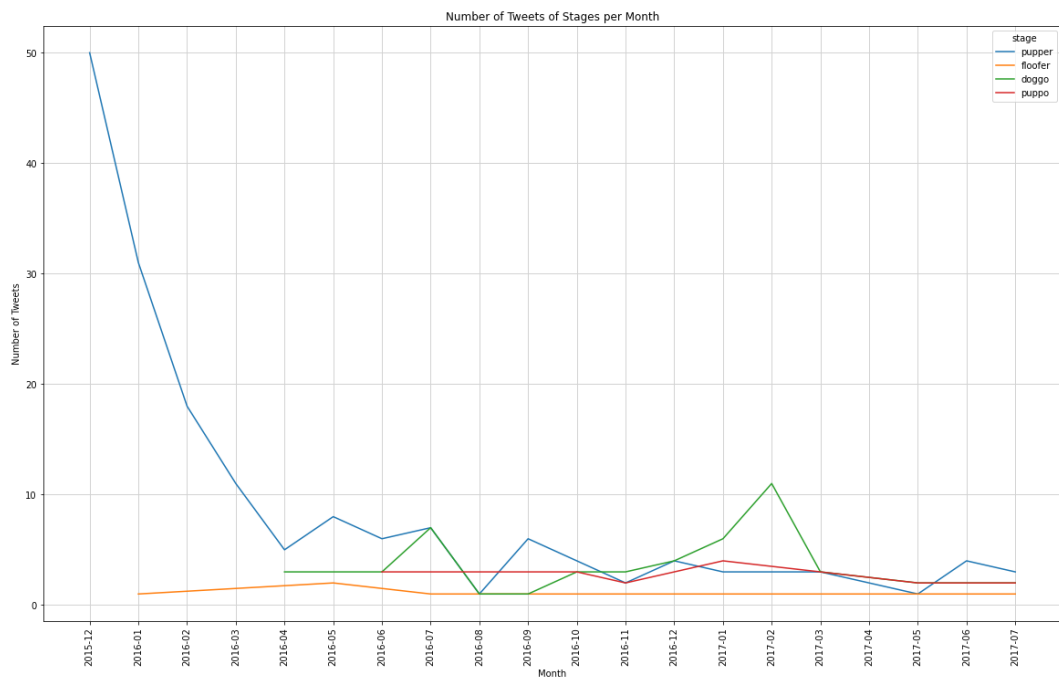

We found that both favorites and Retweets counts show the same result; pupper & doggo stages have the most favorites and retweets.

2. Which Dog's Stage have most rates

Unlike favorites and retweets results pupper has the least rating result, and the highest rating values are pupper, and doggo respectively.

3. Which Dog's Stage have most Tweets Per Month

We Observe that from 2015 to July-2016 pupper dog stage has the most tweets, after that, all stages had tweets less than 10 tweets.
